DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 2. Claims 1-7 and 9-14 are rejected under 35 U.S.C. 102(b) as being anticipated by Ausiello. Fig. 2 of Ausiello discloses an engine cogeneration system in which a power generator 4 is driven a plurality of engines 2 to supply electric power, and at the same time, exhaust heat from said plurality of engines 2 is recovered to supply the heat to a heat load 16, wherein at least one of a number of engine to be driven and a combustion mode of said engine is controlled 15 to meet heat load and power load to be demanded.

Allowable Subject Matter

3. Claims 8 and 15 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
